Subject: Indian Gaming Local Community Benefit Grant – Wildcat Canyon Road Centerline Enhancements

This letter will memorialize County intent to participate in the San Diego County Indian Gaming Local Community Benefit Committee (IGLCBC) Grant application for Wildcat Canyon Road – Centerline Enhancements to Reduce Crossover Collisions. Contained in the original grant application was a request for \$122,000 for placement of enhanced centerline markings to improve visibility and provide tactile notice to drivers of the centerline on Wildcat Canyon Road. The requested funding represents the actual cost of contract placement of the enhancements. The requested funding does not include ancillary costs to design, develop specifications, send the contract out to bid, award, and then inspect construction of the improvements. County participation will cover those “soft” costs for the project which is estimated at \$53,000, or 30% of the total \$175,000 project cost.

If this proposal is not agreeable to the San Diego County Indian Gaming Local Community Benefit Committee, or a different participatory share of the project is desired, County offers to fund and obtain new counts that will confirm County versus Barona Casino traffic contributions on Wildcat Canyon Road and will agree to fund the proportionate share of this \$175,000 project as determined by those counts.

Sincerely,

Michael H. Robinson, P.E.
Deputy Director
